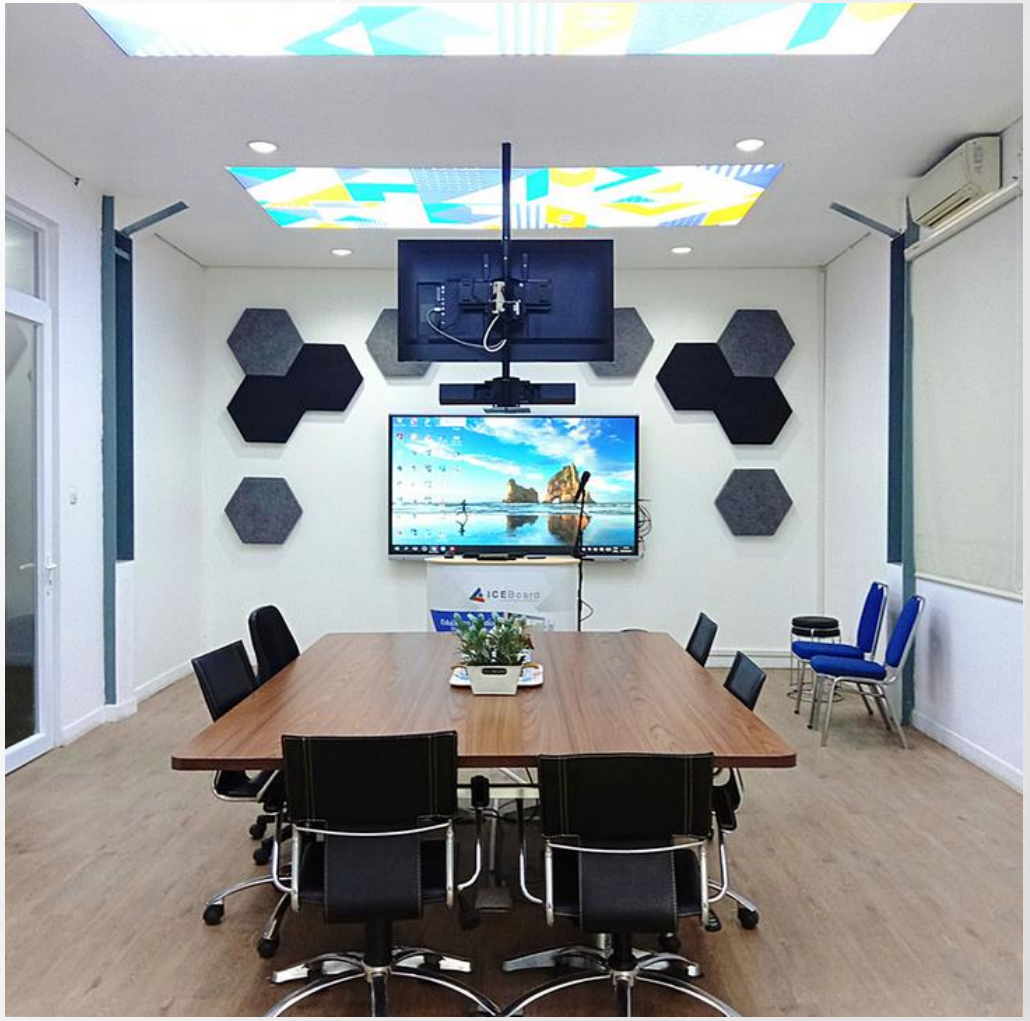
About InnoGRAPH



InnoGRAPH has been providing solutions to the visual communications industry for more than 29 years, ranging from large format digital printing to digital signage. We offer the development of various products that accommodate various industrial needs, from portable promotional display products to digital signage development and innovation with the cloud-based DigisignPlay content management system (CMS) solution. Our reliable team in the field of digital signage also have various LCD with table stand mode as reliable solutions to the customers.

Definition & Benefits Of Digital Signage

DIGITAL SIGNAGE is an information board that comes in digital form, so that it can display various types of different visual content, including videos, images slideshow, running text, widget like weather, clock, etc.

The use of digital signage is something you need to consider because it brings many benefits, including:

- A more attractive display because it uses moving visuals
- Content updates can be done anytime and anywhere
- Content distribution is easier in just one Content Management Software (CMS)
- Brand Image will increase
