# About InnoGRAPH

InnoGRAPH has been providing solutions to the visual communications industry for more than 31 years, ranging from large format digital printing to digital signage. We offer the development of various products that accommodate various industrial needs, from portable promotional display products to digital signage development and innovation with the cloud-based DigisignPlay content management system (CMS) solution. Our reliable team in the field of digital signage also have various kiosks as reliable solutions to the customers.

The background features a light gray color with a subtle pattern of white geometric shapes, including triangles and lines, creating a modern, digital aesthetic.
