InnoGRAPH at a Glance

For over 30 years, InnoGRAPH has evolved from a large-format digital printing specialist into a trusted provider of digital signage solutions since 2009. The company offers a comprehensive range of industrial-grade products, from aluminum-based portable displays to advanced digital display ecosystems powered by its proprietary Content Management System (CMS).

Supported by decades of experience in digital product development and a dedicated after-sales service team, InnoGRAPH is committed to delivering reliable, innovative, and user-friendly solutions that meet the evolving needs of its clients.

Vision

To be a leader in visual communication by always innovate and fulfilling customer satisfaction.

Mission

To provide creative and innovative display solution product and services to business sector that help information communicated efficiently.

In today's healthcare environment, patient experience and operational efficiency are essential. Digital displays are more than information boards—they enhance communication, guide patients, and improve the overall healthcare journey.

InnoGRAPH delivers integrated hospital solutions through a smart digital display ecosystem that supports patient engagement, streamlines operations, and elevates healthcare service excellence.

Because better communication creates better patient experiences.

Education

Education is no longer confined to textbooks and whiteboards. Digital displays are transforming the way knowledge is shared, making learning more interactive, collaborative, and impactful. InnoGRAPH provides innovative education solutions that empower schools, universities, and training centers with technology designed to enrich learning experiences and improve campus communication.

Because every lesson deserves to inspire.
